MEMORANDUM FOR: Director of Materiel

SUBJECT: Preparation of Operations Order

1. This directorate is currently preparing an Operations Order which will be the basic document followed by squadrons operating in the field. This document will contain recurring and routine instructions which will be utilized in the accomplishment of the assigned mission.

2. Annex E of this Operations Order is devoted to logistics. The logistics annex in this case has been much simplified by the 400- series of the 4070th Support Wing. In addition to this logistics support plan, there are three other supply areas that must be covered in this annex. They are:

- a. Supply and resupply of film (which the staff is currently in the process of publishing)
- b. The supply and resupply of special weather instrumentation
- c. The supply and resupply of electronic data gathering devices.

3. This directorate is available for advice and/or aid in the preparation of this annex as to format or composition of the information to be contained in the annexes.
